TWISTED PENDANTS

These polymer clay twisted pendants are just amazing and so simple to make! Grab your tools and let's begin!

Watch a video tutorial on [YouTube](#).

Materials & Tools:

- Polymer clay (colors of your choice)
- [Machine](#)
- [Czextuder](#) + [LC Disk 1 & 2](#)
- Scalpel, blade
- Leather cord

Petra Vilímková

Petra lives near Pilsen, Czech Republic. Ever since childhood, she has loved learning new craft techniques. By age fifteen, she began studying art at various art schools in Pilsen before receiving Bachelor of Arts degree in Industrial Design at the Ladislav Sutnar Faculty of Design and Art, University of West Bohemia. She has been working for LUCY CLAY since 2014.

Condition polymer clay in several shades. Use the extension with 3 holes from LC Disk 1.

Take the extrusions and press them together. Place it into the Czextruder.

Extrude the clay again. Now use the extension with 3 holes from LC Disk 2.

Cut the extrusion into smaller pieces about 5 cm long.

Roll it at the ends so the ends become thinner.

Bend it in the middle.

Twist both ends around each other.

Make more pendants this way and bake them according to the manufacturer's instructions.

Hang the pendant on the leather cord.

CZEXTRUDER

LC Czextruder is the most robust and reliable extruder on the market. It was designed by polymer clay artists in cooperation with engineers, that is why LC Czextruder is the best tool for extruding polymer clay. It offers easy and smooth extruding, robust and well-engineered construction, hand-free mode and a broad range of extensions for LC Czextruder - LC Disks. LC Czextruder will bring your polymer projects to a whole new level. Discover LC Czextruder and enjoy claying.
