

WOVEN COASTER

Petra Vilímková

## WOVEN COASTER

Learn how to make polymer clay woven coasters for table decoration. Grab your extruder and let's begin.

Watch a video tutorial on [Youtube](#).

### Materials & Tools:

- Polymer clay (color of your choice)
- [Machine](#)
- [Czextuder](#) + [LC Disk 1](#) (extension with 3 small holes)
- Scalpel, blade

### Petra Vilímková

Petra lives near Pilsen, Czech Republic. Ever since childhood, she has loved learning new craft techniques. By age fifteen, she began studying art at various art schools in Pilsen before receiving Bachelor of Arts degree in Industrial Design at the Ladislav Sutnar Faculty of Design and Art, University of West Bohemia. She has been working for LUCY CLAY since 2014.

Condition polymer clay. I used KatoPolyclay because it is very strong after baking. Put the clay into the Czextruder. Use the extension with 3 holes from LC Disk 1 and extrude the clay.

I extruded clay in two shades of brown. Cut extrusions into pieces of the same length.

Create strips - press together three extrusions.

Cross two strips. Then start weaving - add two strips.

Add another two strips.

Continue weaving this way.

Weave the whole coaster.

Cut off the excess.

Bake the coaster according to the manufacturer's instructions. Your coaster is ready.

# CZEXTRUDER

LC Czextruder is the most robust and reliable extruder on the market. It was designed by polymer clay artists in cooperation with engineers, that is why LC Czextruder is the best tool for extruding polymer clay. It offers easy and smooth extruding, robust and well-engineered construction, hand-free mode and a broad range of extensions for LC Czextruder - LC Disks. LC Czextruder will bring your polymer projects to a whole new level. Discover LC Czextruder and enjoy claying.
