

## COILED BOWL

Petra Vilímková

## COILED BOWL

In this polymer clay tutorial, you will learn how to make a coiled bowl using the Czextruder.

Watch a video tutorial on [Youtube](#).

### Materials & Tools:

- Polymer clay (colors of your choice)
- [Machine](#)
- [Czextruder](#) + [LC Disk 2](#) (extension with 3 holes)
- Scalpel, blade
- Liquid polymer clay
- Bowl (mold - I used ø10cm)

### Petra Vilímková

Petra lives near Pilsen, Czech Republic. Ever since childhood, she has loved learning new craft techniques. By age fifteen, she began studying art at various art schools in Pilsen before receiving Bachelor of Arts degree in Industrial Design at the Ladislav Sutnar Faculty of Design and Art, University of West Bohemia. She has been working for LUCY CLAY since 2014.

Condition polymer clay in two colors. I used brown and green. Brown clay fills up 2/3 of the Czextruder barrel. Green clay fills up the rest (1/3).

Put both colors in the Czextruder and extrude the clay. Use the extension with 3 holes from LC Disk 1.

Let's make the bowl. Prepare your mold. Coil the first extrusion to make a spiral. Continue till you reach the end of the extrusion.

Take another extrusion and continue. Smooth the joint.

Continue this way with the third extrusion.

Extrude clay in the green color. Roll the extrusion to make one end thinner.

Now use this extrusion to make the rim of the bowl.

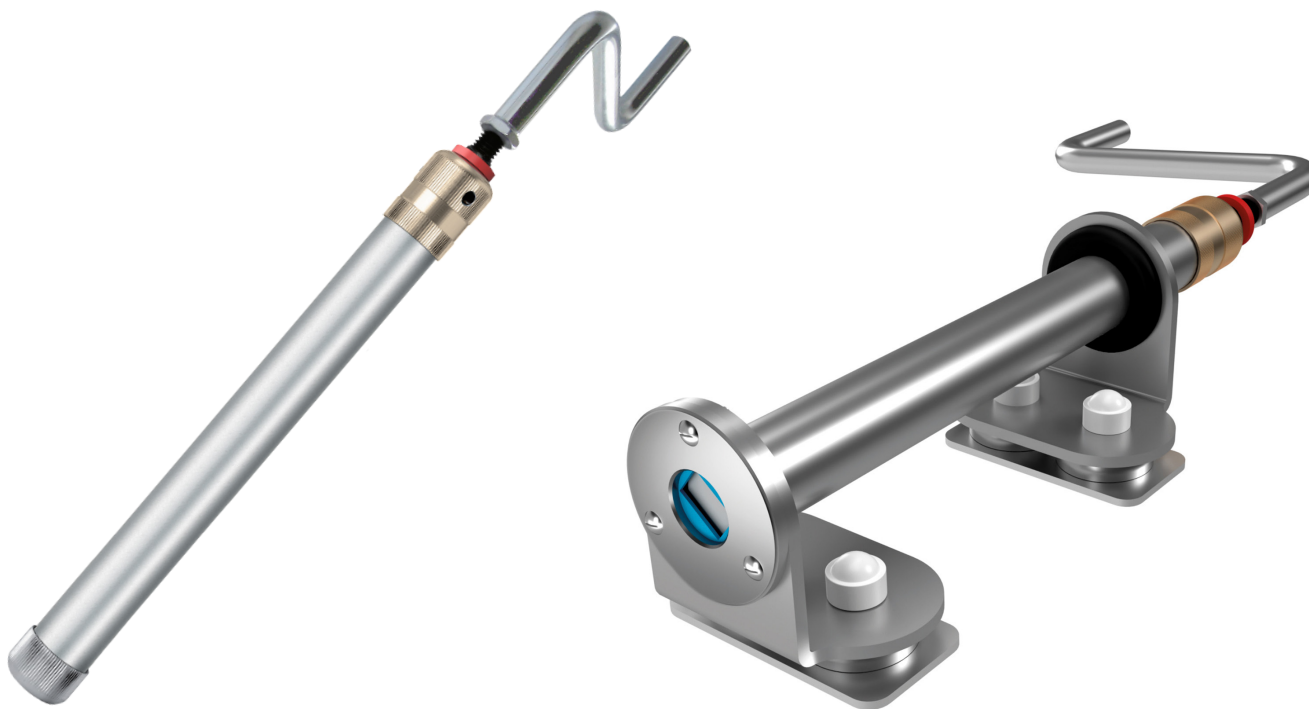

Make 3 small balls and use liquid polymer clay to stick them to the bottom. Bake according to the manufacturer's instructions.

Let it cool down completely and remove the bowl from the mold.

# CZEXTRUDER

LC Czextruder is the most robust and reliable extruder on the market. It was designed by polymer clay artists in cooperation with engineers, that is why LC Czextruder is the best tool for extruding polymer clay. It offers easy and smooth extruding, robust and well-engineered construction, hand-free mode and a broad range of extensions for LC Czextruder - LC Disks. LC Czextruder will bring your polymer projects to a whole new level. Discover LC Czextruder and enjoy claying.
