

CHRISTMAS CANDY CANES

Petra Vilímková

CHRISTMAS CANDY CANES

Make these super quick Christmas candy canes with your Czextruder and LC Disk 8. You can use them to make earrings or pendants. Or use a larger disc (LC Disk 3) to make Christmas ornaments.

Watch a video tutorial on [Youtube](#).

Materials & Tools:

- Polymer clay (red and white)
- [Machine](#)
- [Czextruder](#) + [LC Disk 8](#) for small canes (extension with 2 semicircles) or [LC Disk 3](#) for bigger canes (semicircle)
- [Laminated working grid](#)
- Scalpel, blade

Petra Vilímková

Petra lives near Pilsen, Czech Republic. Ever since childhood, she has loved learning new craft techniques. By age fifteen, she began studying art at various art schools in Pilsen before receiving Bachelor of Arts degree in Industrial Design at the Ladislav Sutnar Faculty of Design and Art, University of West Bohemia. She has been working for LUCY CLAY since 2014.

Condition red and white polymer clay. Extrude both colors through the same semicircle disc.

Cut extrusions into smaller parts. Take one red and one white extrusion and press them together.

Twist it.

Shape the cane.

Cut off excess clay.

Make more canes. Bake them all on the paper to avoid shiny spots. Drill holes for headpins and make earrings. Or hang them on your Christmas tree.

CZEXTRUDER

LC Czextruder is the most robust and reliable extruder on the market. It was designed by polymer clay artists in cooperation with engineers, that is why LC Czextruder is the best tool for extruding polymer clay. It offers easy and smooth extruding, robust and well-engineered construction, hand-free mode and a broad range of extensions for LC Czextruder - LC Disks. LC Czextruder will bring your polymer projects to a whole new level. Discover LC Czextruder and enjoy claying.
